PROFESSIONAL SUMMARY

AI/ML-focused Computer Science student (3rd year, dual degree) with hands-on experience in building machine learning models and data-driven systems. Skilled in Python, PyTorch, and Scikit-learn, with proven ability to develop end-to-end ML pipelines, optimize model performance, and analyze complex datasets. Strong software engineering foundation with experience in scalable backend systems and real-world application development.

SKILLS

Programming: Python, C#, SQL

Machine Learning: Scikit-learn, PyTorch, Pandas, NumPy

Deep Learning: CNNs, ConvNeXt, Model Training & Evaluation

Data: Data Preprocessing, Feature Engineering, Data Analysis

Tools: Git, Jupyter Notebook, Postman

Concepts: Machine Learning, Data Structures & Algorithms, OOP, API Development

PROJECTS

Face Emotion Detection | *Python, PyTorch, ConvNeXt* | [Kaggle](#)

- Developed a deep learning model for facial emotion recognition using **ConvNeXt** architecture.
- Achieved **80%+ validation accuracy** through advanced data augmentation techniques (Mixup, normalization)
- Improved model generalization by optimizing training pipeline and hyperparameters
- Processed and analyzed image datasets for feature extraction and performance evaluation

Online Game Popularity Prediction | *Python, Scikit-Learn, Pandas* | [GitHub](#)

- Built a regression model to predict game popularity, achieving **R² score of 0.96**
- Performed data cleaning, feature selection, and correlation analysis on large datasets
- Applied machine learning techniques to identify key factors influencing user engagement

RSA secureX | *C#, .NET* | [GitHub](#)

- Engineered a raw, from-scratch implementation of the RSA public-key cryptosystem without reliance on external security libraries to study cryptographic hardness.
- Developed a custom Extended Precision Arithmetic (BigInt) module capable of processing hundreds of digits for secure key generation.

Cognara (Knowledge Sharing Platform) | *Django, React, Python* | [Live Demo](#)

- Architected a full-stack web platform integrating a robust Django REST backend with a dynamic, component-based React frontend.
- Designed a highly scalable database schema for persistent data storage and rapid, low-latency user interaction handling.

PROFESSIONAL EXPERIENCE

Freelance Web Developer | [Shopify](#)

Part-time | Jul 2025 – Present

- **Custom Theme Development:** Developed and customized e-commerce themes using **Liquid, HTML5, and CSS3**, building interactive features that drove user engagement.
- **Responsive Design Implementation:** Implemented responsive, cross-browser compatible designs to optimize the mobile user experience and maintain strict brand guidelines.

Technologies: Liquid, HTML5, CSS3, Shopify Platform, Responsive Web Design

Software Quality Assurance Intern | [Career 180](#)

Hybrid Position | Sep 2024 – Dec 2024 | 4 months

Completed intensive 200-hour software testing training program, achieving ISTQB Foundation Level and Agile Testing certifications

- **Test Case Development:** Designed and executed detailed manual test cases for web and mobile applications, ensuring comprehensive coverage of functional and non-functional requirements
- **API Testing Expertise:** Performed thorough API testing using Postman, validating data integrity, response times, and error handling across multiple endpoints

EDUCATION

Bachelor of Science in Computer Science | Artificial Intelligence Department

[Ain Shams University](#)

Cairo, Egypt | October 2023 – Present

Bachelor of Science in Computer Science | Artificial Intelligence Department

[East London University](#)

London, UK | October 2023 – Present

Academic Focus: Machine Learning, Data Structures & Algorithms, Software Engineering, Database Management, Object-Oriented Programming, AI Model Development

CERTIFICATIONS & TRAINING

ISTQB Foundation Level Certification | [Career 180](#) | 2024

Comprehensive software testing fundamentals and industry best practices

Meta Front-End Developer Professional Certificate | [Coursera](#) | 2023

HTML/CSS Advanced Techniques, JavaScript Programming, React.js Development, UI/UX Design Principles

CS50's Introduction to Computer Science | [Harvard University](#) | 2021

Algorithmic Thinking, Data Structures, Problem-Solving Methodologies, Abstraction and Encapsulation

IELTS Academic Score: 6.5 | September 2024

Demonstrated proficiency in English for international academic and professional environments
